

LIFESTYLE DOCS COVID-19 UPDATES

- We are closely monitoring the updates from CDC and Texas Governor Abbot. If the current trend continues, we will reopen our clinic on June 1st for in-clinic routine check-ups and yearly physicals for asymptomatic patients for 3 days a week (Mon. Wed. and Thurs.) from 9A - 12P.
- You may schedule your appointment online for in-clinic and telemedicine visits by clicking the Appointment tab on Home page.
- Any symptomatic patients should schedule a telemedicine visit or go to the nearest ER. If any symptomatic patients present to the clinic, they will be asked to return to their vehicle and offered a telemedicine visit.
- We hope to resume full operations at the clinic after reviewing the latest recommendations from public health authorities and when we have the full complement of personal protective equipment that ensures the safety of our patients and our staff.
- We have instituted Covid-19 Policies in the clinic. Please, review these policies before coming in for an in-clinic visit.
- We will keep you posted on our website for all future updates and social media pages.
- If you have any questions, please, feel free to reach out to a team member at 713 592 8900.
